

AAPG/EAGE/SPE Shale Gas Workshop

AL BUSTAN PALACE RITZ-CARLTON HOTEL, MUSCAT, OMAN • 15 - 17 OCTOBER 2012

Presenters Name & Company: Mark S. Egan - WesternGeco-Schlumberger

Abstract Title: The Resolution Required for Reservoir Characterization and Completions Design in Shale Gas Exploration

Abstract: Lateral heterogeneity in shale gas reservoirs can go down to the scale of the perforation cluster. In terms of recognizing spatial heterogeneity in the big picture, 3D seismic is king. But how much resolution can it provide? This presentation addresses this question for a cross-disciplinary audience of geologists, geophysicists, and engineers.
